Sensei

MAKE THE MOST OF MICROSOFT PLANNER PREMIUM with COPILOT

Enhance and extend your project & portfolio management capabilities with Sensei's Planner *Plus* incorporating Microsoft Planner Premium.

Microsoft Planner Premium is Microsoft's next-generation work and project management solution designed to help organisations streamline project execution, enhance team collaboration, and drive productivity across the organisation. Built in the trusted **Microsoft 365 ecosystem**, Planner Premium works seamlessly with the Microsoft tools your team are already using.
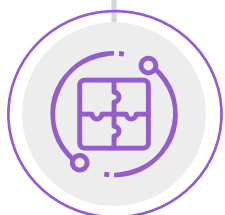

With **Planner Premium** you can:

CREATE

- Project timelines (Gantt view)
- Backlog and sprints
- Baselines and critical paths
- Advanced dependencies – lead and lag
- Custom workflows and templates, and automated processes

MANAGE

- Tasks and deliverables across teams
- Project goals
- Resource requests and allocations
- Project financials, budgets and costings
- Programs and portfolios
- Your projects and work delivery with real-time reports

INTEGRATE

- Access all work in Microsoft Teams
- Surface information in Outlook
- Leverage the Microsoft Power Platform
- Harness the AI capabilities of Microsoft Copilot
- With Microsoft 365 security, compliance and data privacy

SENSEI PLANNER*PLUS*

Sensei Planner *Plus* extends and customises the capabilities of **Microsoft Planner Premium** so your project teams can quickly get started planning, managing, monitoring and delivering projects with even greater efficiency and control.

MICROSOFT 365 ECOSYSTEM

+

SENSEI PLANNER PLUS GIVES
YOUR ORGANISATION:

STREAMLINED PROJECT REQUESTS

Enable your organisation to create, submit, and evaluate project requests before they transition into active projects, ensuring better alignment with business objectives.

INTEGRATED PORTFOLIO, PROGRAM, AND PROJECT REPORTING

Access pre-built reports and real-time insights through embedded Microsoft Power BI reports and data models, enhancing decision-making across portfolios, programs, and projects

RESOURCE MANAGEMENT

Create and manage role-based resource types, extending resource attributes to align with organisational needs. Improve efficiency with advanced resource filtering and grouping capabilities.

SENSEI PLANNER PLUS INCLUSIONS

TECHNICAL READINESS

Get up and running with access to an experienced team of consultants.

- Licensing review and options
- Knowledge transfer to your Administrator to set up users with licenses and security

ADVANCED PROJECT MANAGEMENT CAPABILITIES

Sensei Planner *Plus* builds on your scheduling capabilities, giving you the ability to:

- Capture organisation-specific project attributes
- Document business case information
- Define project assessment criteria
- Track high-level project financials
- Monitor risks, issues, and project changes
- Provide real-time project status updates

COMPREHENSIVE PROGRAM MANAGEMENT

Manage program-wide information, including:

- High-level program financials
- Program status KPIs
- Program notes and commentary
- Seamless connection of multiple projects within a program

CENTRALISED & CONFIGURABLE PROJECT AND PROGRAM VIEWS

Gain a centralised, interactive view of all projects and programs across your organisation. Customise your experience with dynamic views tailored to different roles, allowing you to:

- Search, edit, group, sort, and filter project data
- Save personalised views for streamlined access
- Edit views in bulk for efficiency

AI-POWERED INSIGHTS WITH MICROSOFT COPILOT

Leverage Microsoft Copilot to generate targeted project and program summaries tailored to your organisational needs. Half day workshop to determin an AI road map for PPM:

- Projects and programs
- Project requests
- Resources and tasks

UPSKILL AND TRAINING

Upskill your team in the tool and project management fundamentals

- Solution walk through
- Training for PM's

GET UP AND RUNNING QUICKLY
AND CONFIDENTLY

Sensei Planner *Plus* accelerates your ability to leverage the benefits of **Planner Premium** across your organisation. Sensei will have your project teams quickly planning more effectively and optimising project execution resulting in enhanced visibility and better decision-making across your organisation.

Sensei delivers the **Planner *Plus*** for a fixed fee, giving you a solution that can give you immediate business value.
